

ParisTech International Day 2008

Dear Mr President, dear colleague

ParisTech, the Paris Institute of Technology¹, is willing to organise an international Day to allow the privileged partners of our Graduate Schools to present the university courses and opportunities for students to study abroad.

ParisTech welcome yearly almost a thousand international students from all over the world, studying in one of the 10 ParisTech institutes. For academic year 2007/2008, ParisTech is also sending about the same number of students abroad.

This year, we will be having a special event called "International Day", which will be held on Monday 14th of January 2008 at Arts et Métiers ParisTech (Ecole Nationale Supérieure d'Arts et Métiers) 151 Boulevard de l'Hôpital, 75013 Paris.

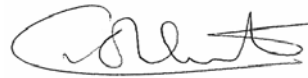

This event will be a great opportunity for ParisTech to meet and exchange with University partners about mobility programmes.

As you may see in the enrolment programme, the morning will provide possibility for exchanging ideas on improving mobility for students as well as time for delegates to meet. The afternoon, starting with a presentation to students on general mobility opportunities, will be followed by presentations from universities directly to groups of students. Parallel to this, stands will be available all afternoon for meeting students individually. We expect a participation in a region of 1000 students.

We shall be very honoured if your university will be present.

A tentative Programme and a registration is joined to this mail.

Looking forward to meeting you or your representative in January

Cyril Van Effenterre
President of ParisTech
